The Drawings filed 7-30-2003 have been accepted.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Non-elected claims 8-10 have been canceled without prejudice.

The following is an examiner's statement of reasons for allowance: A Declaration under Rule 132 was filed by Dr. Michael Kirkup, Ph.D. It seeks to overcome the lack of enablement rejection. The Examiner has contended that one of ordinary skill in the art could not without undue experimentation synthesize the instantly claimed novel analogs of Warfarin.

In the Declaration Kirkup stated that he was asked by applicant's assignee to prepare these compounds. He states that he was readily able to prepare these compounds using a variety of techniques available to him or any other practitioner skilled in this art and that the processes used to prepare these specific compounds were adapted from conventional synthetic reactions, many of which had been disclosed in journal references.

The Declarant then goes on to cite these references, which have now been made of record, and also gives the exact chemical protocol that he and his colleagues used to make the compounds.

On examination of these references along with US Patent 2,427,578, which is incorporated by reference on p. 2 of the instant specification, the Examiner has withdrawn the lack of enablement rejection.

This is because the cited references disclose the modification of the standard general synthesis first disclosed in said US Patent 2,427,578 in the synthesis of different Warfarin analogs. The modification is the selecting of the alpha, beta-unsaturated ketone reactant depending on the particular Warfarin analog intended.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard Dentz whose telephone number is 571-272-0683. The examiner can normally be reached on Mon-Fri from 8 to 4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas McKenzie, can be reached on 571 272-0670. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
